

Lighting Maintenance

PROACTIVITY PREVENTS PROBLEMS

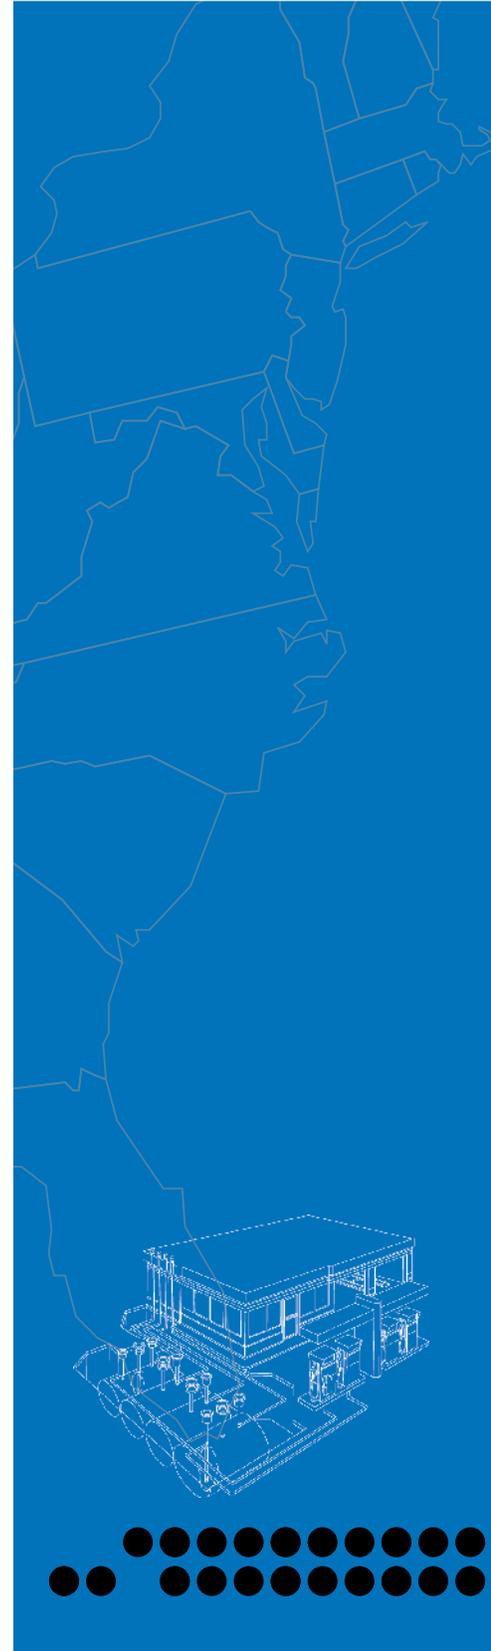

Replacing your facilities' lamps and other maintenance items can be burdensome and time consuming. And, failing to maintain consistent replacement schedules could result in an emergency situation which would put you, your employees, and your customers at risk. **US Tank Alliance** eliminates the hassle and worry with its proactive approach to managing your lighting maintenance needs.

US Tank Alliance's lighting maintenance program not only ensures consistent lighting capabilities at your facilities, but that you also continue to operate free of maintenance emergencies, which will save you money. Let **US Tank Alliance** handle your lighting maintenance needs by:

- Maintaining a Bi-Monthly Visit Schedule to All Locations
- Replacing Inoperable Lamps inside and outside
- Replacing HVAC and Water Purifying Filters
- Performing Tier One Audits (Fire Extinguishers, Emergency Exits, and Water Line leak Inspections)
- Responding to Emergency Issues
- Employing Licensed and Insured Technicians for Your Protection
- Providing Reliable, Friendly, and Consistent Customer Service
- Fixed Rates for visits, whether its 1 or 1,000 light bulbs

EXCELLENT CUSTOMER SERVICE—100% GUARANTEED

We guarantee consistent and prompt bi-monthly visits to all your facilities and provide excellent customer service during each visit. Plus, we respond promptly to emergency calls—24 hours a day, seven days a week.

Your best choice for professional and reliable tank system testing, tank cleaning services, lighting maintenance, and waste transporting.

US TANK ALLIANCE HAS YOU COVERED

With multiple locations throughout the country, **US Tank Alliance** is ready to manage your lighting maintenance needs.
