

Waste Transporting

CONCERNED ABOUT YOUR WASTE TRANSPORTATION PROGRAM?

Improper disposal of hazardous and non-hazardous waste can be toxic for your business and the environment. Failing to comply with certain environmental, safety, and health regulations could also be costly for your company. **US Tank Alliance** eliminates the concern of waste disposal with their appropriate and professional waste transporting procedures.

US Tank Alliance's waste transporting program not only ensures that you are compliant with environmental regulations, but continue to operate a sanitary facility. Let **US Tank Alliance** handle your waste removal needs by:

- Administering Pick-ups within 14 Days of Notification
- Proper Handling and Disposing of Waste Drums
- Providing Transportation and Disposal Services
- Stay Aware of Drum Hazard Levels at All Times
- Disposing of Non-Hazardous Industrial Waste (Environmental Clean-up Samples, Drum Filters, Contaminated Soil, Wastewater)
- Completing all Compliance Documentation and Manifests
- Employing Licensed and Insured Representatives for Your Protection
- Providing Reliable, Friendly, Consistent Customer Service
- Fixed Rates for disposal, whether its 1 or 1,000 drums

100% GUARANTEED COMPLIANCE

US Tank Alliance's waste transporting program provides piece of mind by tracking every step of the process—from drum pick-up at your site to drop-off at the disposal facility with signed manifests. Our reliable and environmentally compliant procedures uphold your company's compliance responsibilities and overall reputation.

Your best choice for professional and reliable tank system testing, tank cleaning services, lighting maintenance, and waste transporting.
